Barry has power washed our house every year for several years now. He has been incredibly professional and responsive 100% of the time, and he always makes sure we are satisfied with the results. If there is anything of concern, like clogged gutters or loose anything on the house, he has always let us know. It's almost like getting a free exterior inspection on your house. My local family members have also had Barry power wash their house for longer than I have, and all have raved about him. I trust him completely and would recommend him to anyone! In fact, every now and again someone on our neighborhood Facebook page asks for a power wash company recommendation, and my sister and I are both quick to jump in to say, "CALL BARRY!" You won't be disappointed.

**Description of work:**

Barry power washed our house. He's been power washing it every year since we bought it in 2009.

We have a two-story house approximately 2700 square ft. We have a front porch on both the lower and top floors. We also have a small screen room with a pebbled-rock type flooring that they also power washed. All of the mold and mildew was removed and it was pretty bad especially on the white porch railings on both floors. It actually looks like the siding has all been repainted! I couldn't be happier. I can't address the professionalism of the worker or workers since I was out of town when the work was done, but the person I talked to on the phone was knowledgeable and the price quoted was acceptable.

**05/15/2014**

Working with Barry was a wonderful experience, and I would HIGHLY recommend him to anyone!

My initial contact with him was via email to his company. I received a response within 24hrs with an

apology for the delay! During our phone conversation, he explained everything about his work, the products used and answered the questions I had. An appointment was scheduled for 05/14/14. Barry was on time, worked efficiently, did an excellent job, and I plan on scheduling him for the fall! Anyone reading these reviews about A Clean Wish 1, LLC, make the call! You will be glad you did!

A Clean Wish came to our home and estimated the cost to clean our house, wood deck, wood pergola and brick patio (which was around \$300). I ended up just having them clean the house, and took care of the other areas myself. They came while I was out of town on business and did a fantastic job. No detail was missed and the house was sparkling. They called me in advance to let me know what time they would arrive and were professional throughout the transaction. I would recommend these guys.

He did an excellent job pressure washing our house. It had been some time since it was washed, and he made it look like new again. He was careful of our plants and bushes. He was dressed professionally and did a professional job. I had heard horror stories about pressure washing jobs that didn't clean everything. He worked very hard and we thought the price was more than reasonable for the amount of work he did.

**07/17/2013**

First of all, Barry was very responsive in returning my call the next day, coming over for a free

estimate, and being here when he said he would. He had a very tight schedule, but when we told him

we had some company coming, he was able to fit us in. Also, he took the time to show me exactly what he would do and how long it would take. We were very happy and will use him again in the future!

A Clean Wish showed up 30 minutes early and set up their equipment and began work at the time

they quoted. They really pay attention to detail. Everything looked great and they are extremely friendly.

I had a very small plastic shed outside and even though it wasn't in the agreement they pressure washed it too at no additional charge. They were done with everything in about 2 hours. I did not know until I saw their truck that they also do landscaping. Inquiring about some landscaping ideas led to them giving me some great lawn tips. These guys are fantastic!

If you are in need of pressure washing, this is the company to use. Barry was responsive to my initial call to set up an appointment. He was on time, polite and totally professional. The work was completed promptly and as promised. He accepted the Angie's list coupon with no hesitation. I will definitely use Barry again.

I chose the company because of the good reviews on Angie's List. I called and left a message and Barry called me back the same day. He gave me an estimate over the phone for the home and said he could let me know when he came how much the decks would be. After all the sunny days we had for the past week or so, of course it poured rain the day he arrived. He was very professional and handed me his business card when I opened the door. He spent about 3 hours in the rain and did an excellent job. Most people would have rushed through the job and probably charged more. My decks and windows and house haven't shined so much in I can't remember when. They also do yard work and we have a big lot with lots of trees which he said they charge by the hour so it would be hard to give an exact estimate for cleaning up the leaves but I have a feeling it will be reasonable. We may even hire them to do regular yard maintenance after all the leaves are done falling. It sure is nice to find a company that you can trust.

**11/13/2012**

Using previous ratings as a guide, I called A Clean Wish to make an appointment. I received a call back later in the day. Barry (the owner) asked about the size of the house and the amount of landscaping around the house that would need to be moved and/or protected. He estimated a charge of \$140.00. On the day of the appointment, he was a half hour early. He set-up his equipment and finished in about two hours. The house is now spotless. Barry does not use a high pressure washer. He saturates the siding with a plant friendly solution and then, scrubbing where needed, rinses it off. This was important to me as I did not want water forced under the siding. The cost was \$140.00. I was and am totally satisfied with the work that A Clean Wash did. I highly recommend this company and I will use them again.

I contacted A Clean Wash in late October to pressure wash my house, and due to his schedule he could not come till early November. We were very pleased by the work and quality of service. Though he was booked solid for quite some time, Barry squeezed us in in just under a week due to another scheduling quirk. He arrived on-time and got straight to work. By the time he was done, our house was no longer covered in disgusting mold. As we're new to SC, Barry let us know that this is only required every couple of years, so that was nice to know. Also, FYI, the price does depend on the size of the house, which I think is quite natural. Ours is two story and around 1900 sq. ft. We will definitely use Barry's services again!

It went excellent! He was very friendly and professional. He took his time and made sure I was satisfied. He also offered extra advice and took the time to answer any questions I had. I will definitely use this company again. My house looks so great and feels clean again. He also took the time to remove any items and was careful not to damage any weak areas of the house. I am very pleased.

Barry was exactly on time. We discussed in detail what areas I was especially concerned about. He paid close attention to what I said because everything was done exactly as I asked. He got the Green fungus off of the brick, the black areas off of the carport, the bugs off from around the lighted areas, and left my home and shed looking bright and beautiful!!! My parents were extremely pleased with his professionalism and work as well! This Company is EXCELLENT IN ALL ASPECTS! He went right to work and when he was done...we did a walk around the entire house to make sure I was completely satisfied. All I can say is and Hats Off to Barry and his Company! If you are looking for a Company to pressure

wash your home, YOU FOUND IT! Barry was polite, professional, paid close attention to detail and very reasonable. THANK YOU AGAIN...BARRY! I will look you up again... when I am ready for fantastic results in having our home pressure washed!

I love "A Clean Wish 1." They came out and did a great job. When I first contacted them I had to leave a message on their answering machine and the owner actually called me back which is unlike most companies that I call. He said that he owned the company and this is what they were going to do for me, how much it was going to be, and that he was going to be there to oversee everything. He did a great job and it was so good that I will call them back next year when it's time for pressure washing again.

- **Services Performed: Yes**
- **Cost: \$100**

**06/01/2012**

He was pretty easy to deal with. As far as I can remember, he did a good job. The overall experience was excellent. The price and quality were excellent. He came to me and explained that the people who cleaned before had used really, really high pressure that had basically removed the protective coating from the paint on our columns. I was very impressed that he knew what he was doing, and that he had actually invented his own washing solution that was enzyme based and not bleach based. I was really happy with the results.

**05/31/2012**

A Clean Wish gave us an estimate of cost for pressure washing our home. It was very reasonable so we contracted with them. They came on time, did a great job, even spraying our flowers to get all chemicals off after they finished. House, porch, garage all look great! We will certainly use them again and recommend them to all our friends! Great price, great job!

- **Services Performed: Yes**
- **Cost: \$165**

I spoke with this member and provided him an estimate. he said the estimate was to high. The conversation ended. Within the same week our office relocated, he called back a week later and wanted to accept the estimate. I called him and left him a message explaining the circumstances of our move.

**05/10/2012**

The company was very easy to get in touch with. I spoke with Barry and scheduled a day for the estimate which was very convenient. Barry gave us the estimate for pressure washing the house, driveway and back patio as well as some concrete steps going down to our pond and he offered to wash the small (2X4 maybe) wooden dock on the pond (no chemicals of course). Because of work we were having to do to the house we decided to wash everything except the house. I emailed Barry and asked for a different estimate and he was very prompt in getting back to us with that. He showed up on the scheduled day and did a great job! I would definitely use this company again :)

**Service Provider Response:**

Wrong number must have been dialed. A Clean Wish number 843-708-9050. There is no AJ that works for A Clean Wish. Sorry for the confusion.

**Service Provider Response:**

We did receive two calls. The first message did get deleted, I am sorry about that. The second time you called I personally return your call and left a message for you to call back at your convenience.

**04/23/2012**

To begin with Barry was prompt in contacting me then was very accommodating with my schedule. He did an exceptionally good job of pressure washing the house which was seriously in need of cleaning. Barry also pressure washed a small concrete patio which was not in our agreement and was glad to do so. As a result we paid him a little more than the agreed upon price because he did more than what was planned. I will only use him for future work and recommend him to others.

- **Services Performed: Yes**
- **Cost: \$115**

**04/23/2012**

We have plants all around the perimeter of house. Barry, the owner of A Clean Wish, came and did an excellent job of cleaning the siding and even the white eaves underneath the roofline. The exterior looks brand new. None of our plants have died though a couple of the more sensitive ones took some leaf damage from the pressure wash solution. Barry did an excellent job beginning to end and we will definitely be using him from now on. I would definitely recommend him to others.

- **Services Performed: Yes**
- **Cost: \$148**

**04/18/2012**

They did not give me an exact time; they said they would come in the afternoon and showed up at around 1:00 pm. I had to call them and redo some work, to which they gladly agreed. They also power washed my cushions and put the heavy items on the porch. They did a good job.

- **Services Performed: Yes**

**03/14/2012**

Barry, the owner of A Clean Wish came out to give us an estimate within 24 hours of contacting him.

The estimate was very affordable. We scheduled them to come do the work a week later. They were on time and thorough. I let them know I was concerned about the paint on our shutters so they actually used a low pressure cleaning option. It was great and there was no risk to the plants in the yard or to our dogs. Great overall experience.

- **Services Performed: Yes**

**03/08/2012**

I contacted ACW; they were very professional over the phone and explained up front that their process was different than most and why. We agreed upon a price and scheduled a time. They were punctual and did a phenomenal job!

**03/06/2012**

I am very pleased with the results. He was on time and got right to work. I will DEFINITELY use this company again.

**02/20/2012**

Everything turned out really well. There was just one man who put the bleach around the house and then did the low pressure wash and everything looked good. I would recommend them to my family and friends stating that they did good work and got a good result.

- **Services Performed: Yes**

**02/02/2012**

My experience with Barry and A Clean Wish was fantastic. Barry is personable, professional and has a great attitude; someone you want working on your home. Barry arrived on time and worked most of the day on my house and driveway. House, porches and driveway all look great. I expected a big improvement on the wood porches and the driveway, but wasn't sure if there was value in cleaning a largely brick home. There is value; the brick is much brighter and noticeably cleaner. I will use A Clean Wish again and will recommend them to friends. Thanks Barry!

**01/24/2012**

He was awesome. He was prompt, he was efficient and he did a very good job. He gets all A+.

**12/10/2011**

The exterior of my house was filthy. The fascia and hardiplank siding were filthy with grime and green algae. A significant portion of my deck was covered in black fungal growth. Barry did a wonderful job with my house. Now, the house pops out, bright and shiny, as if I had a paint job. The deck looks as if I had all the boards replaced. There is a 10 X 10 shed next to the house that was filthy and not included in the estimate. Barry took the time to do it anyway, for free. I really like it when the owner of the business is the one who also does the work, rather than sending crews out to do it. Seems like owners who do the work themselves really make an extra effort to do the job right. I highly recommend Barry for pressure washing.

Barry returned my calls promptly and scheduled service. He called a day before to confirm the appointment. On the day of the appointment, he was running ahead of schedule and called to say he could come earlier, which worked out great. He used a soft wash on the ranch style home and completed the job in about 90 minutes. The house looks terrific. Fair price and would definitely recommend and use again in the future!!!! Barry is professional and attentive to the homeowners concerns. He did my front and back concrete slabs for free since I did not have my screen porch washed which was included in the price. Very satisfied!!!!!! A pleasure to do business with! A+++

- **Services Performed: Yes**
- **Cost: \$90**

**06/02/2011**

I contacted this company after reading the quotes others had wrote here on Angie's list. The company returned my call right away, and we set-up a date and time for a estimate. He showed up on time and gave me a full estimate of the job he was bidding on. We then set a date and time for them to conduct the work. He showed up on time on the date he said he would complete the pressure wash. After he completed the job he asked me to check the work he performed. He did an excellent job and the house looked like new. I asked him to return next year at the same time to redo the house again. Thanks Angie's list for helping me find a great company

**04/20/2011**

They completely power washed - but soft washed our house which is actually quite tall. It is already a raised first floor and then the house starts. It is equivalent to a four-story house because it is raised; so they did all the way up to the roof including the chimney area. They were very professional and very quick. They were a pleasure to deal with. They gave a quick estimate. It was a package deal; so I think I spent \$350. I would use them again in the future.

- **Services Performed: Yes**
- **Cost: \$350**

**04/06/2011**

We have a pool with deck around it. He power washed the furniture around that. He also pressure washed the concrete around the pool. He came when he said he would. We have used him before as well. He did a good job. I rate him high overall.

**03/17/2011**

I called Barry for a price quote, he quickly returned my call gave me an estimate over the phone and then setup a date for the cleaning. He called closer to the date and setup a more exact time and arrived on time for the job. I was pleased with Barry's work and would use him again in the future for pressure washing or any other jobs.

I called "A clean wish 1" and gave the size of the house and 2 porches to be cleaned. The owner asked that I remove everything off the porch. I was given an estimate and that was what I was charged. He brought one person with him and they covered the bushes and plants. They were finished in about a hour and a half. They also cleaned the outside of the windows and screens. They did an excellent job and I was impressed with them. They were very professional and efficient. There aren't many service people in this area that I am impressed with but these people really impressed me. Call them you won't be disappointed.

Did a great job. Showed up on time, actually a little early. I liked the fact that he didn't use a ladder that might cause damage to the gutters. He had long extensions that reached as far as he needed, getting hard to reach places. House didn't have a strong smell of Clorox like my neighbor's house when finished. Whatever chemical he used worked great and didn't hurt my plants. Will use him again next year.

He used extreme care washing newly painted wood louvers which define the lower portion of the elevated home. He responded to my initial request for an estimate within 20 minutes on a Sunday afternoon. He then gave me an estimate over the phone based on a few details I provided. His price was 300.00 less than a more "popular" firm. He set an appointment... Called to confirm the day before and arrived a few minutes early. He completed the job in 2 hours and even repaired some siding at no extra charge. He was friendly and professional and did a great job...the house looks wonderful!
